

CALANDER

This calander is to laminate self-adhesive paper with textiles and fabrics: it can process textiles and fabrics logs combining them with self-adhesive film.

The machine is complete of:

- Programming driven by PLC control device;
- Electronic counter of meters with stop at programmed length;
- Roll holder shaft for unwinding the rolls of material to be coupled, complete of two fixing supports with locking handle;
- Entrance table equipped with a guide, with adjustable inclination to improve the linearity of the material to laminate;
- Upper motorized siliconed calender roller, with heating device and adjustable temperature;
- Lower motorized siliconed calender roller: the distance between the rollers can be adjusted using a handwheel;
- Upper unwinder unit for adhesive film with expanding shaft 3", complete of fast locking system;
- Lower winder unit for the coupled material with shaft 3", complete of fast locking system.

Technical data:

Height 1620 mm
Depth 1230 mm

Width 2600 mm
Weight 520 Kg
