## OUR GUIDING PRINCIPLES

At Manufacturers Supplies Company (MSC), our core values drive everything we do—from pioneering innovation to building lasting partnerships. With a customer-centric mindset, deep expertise, and a family first culture, we deliver cutting-edge solutions that empower success.

-  **Innovation at Our Core**  
Innovation fuels everything we do, driving us to deliver cutting-edge, game-changing converting solutions.
-  **Partnership for Success**  
We're stronger together. By building lasting relationships with our clients and expert manufacturers, we craft solutions built on trust, teamwork, and shared success.
-  **Customer-Centric Excellence**  
Every solution is customized to unlock maximum value, turning your challenges into wins with precision and care.
-  **Expertise that Drives Breakthrough Solutions**  
Our team fuses deep industry knowledge with solutions to tackle real-world challenges, fast and effectively.
-  **Family First Culture**  
We believe in treating our team, partners, and clients like family—fostering a supportive, respectful environment where people and invention thrive together.

## CUTTING TABLES FOR INDUSTRIAL PRODUCTION

---

### FLASHCUT EASY SERIES

*Prototyping, Sampling & Production Made Simple.*

Compact, intuitive, and efficient, the FlashCut Easy Series is designed to deliver fast, accurate cutting across a wide range of materials. Ideal for prototyping, sampling, and short-run production, these systems can be equipped with various cutting tools, marking pens, and accessories to adapt to your application needs.

### FLASHCUT FLEX SERIES

*Flexible Configurations. High-Volume Performance.*

Engineered for versatility and productivity, the FlashCut Flex Series offers both static and conveyORIZED (belt-fed) configurations. With a wide range of options and accessories, these systems provide the flexibility to handle diverse materials and evolving production demands—making them a reliable solution for high-output environments.

### FLASHCUT TWINS SERIES

*Versatility Meets Multi-Tool Processing.*

Built for complex and combined cutting applications, the FlashCut Twins Series features a robust structure and advanced electronics. Its modular dual-tool cutting head allows for efficient processing of materials with varying thicknesses, while optional devices expand capabilities for specialized production requirements.

### CHUCKS & TOOLING SOLUTIONS

*Engineered for Every Cutting Application.*

ATOM offers a comprehensive range of industrial chucks designed to meet diverse production needs. Available technologies include pneumatic, electric, and ultrasonic chucks, each delivering precision and performance for specific materials and applications. Backed by nearly 80 years of cutting expertise, select systems can also be equipped with milling tools to support specialized industries and advanced processing requirements.

## OUR ADDED VALUE

---

### **CERTIFIED QUALITY YOU CAN TRUST**

We partner with industry-leading manufacturers like Atom Cutting to deliver equipment that meets the highest standards of quality and safety.

Atom Cutting systems are certified to ISO 9001 for quality management and ISO 45001 for occupational health and safety, both accredited by Accredia—reflecting a strong commitment to performance, reliability, and workplace safety.

All systems comply with CE directives, and key cutting tables are certified by TÜV SÜD, ensuring proven engineering integrity and regulatory compliance.

For specialized requirements, MSC can also provide Atom equipment certified to APAVE standards upon request.

### **GLOBAL SUPPORT. PROVEN EXPERTISE.**

We don't just supply equipment—we ensure you're supported every step of the way. Through our partnership with Atom Cutting, customers gain access to a global technical assistance network delivering qualified support wherever it's needed.

Atom's commitment to continuous improvement drives ongoing investment in innovation and process optimization—ensuring you benefit from cutting-edge cutting solutions built for long-term performance.

Training and professional support are core to the offering. With dedicated programs for both technicians and customers, MSC and Atom work together to ensure your team stays up to date, highly skilled, and fully supported. APAVE standards upon request.

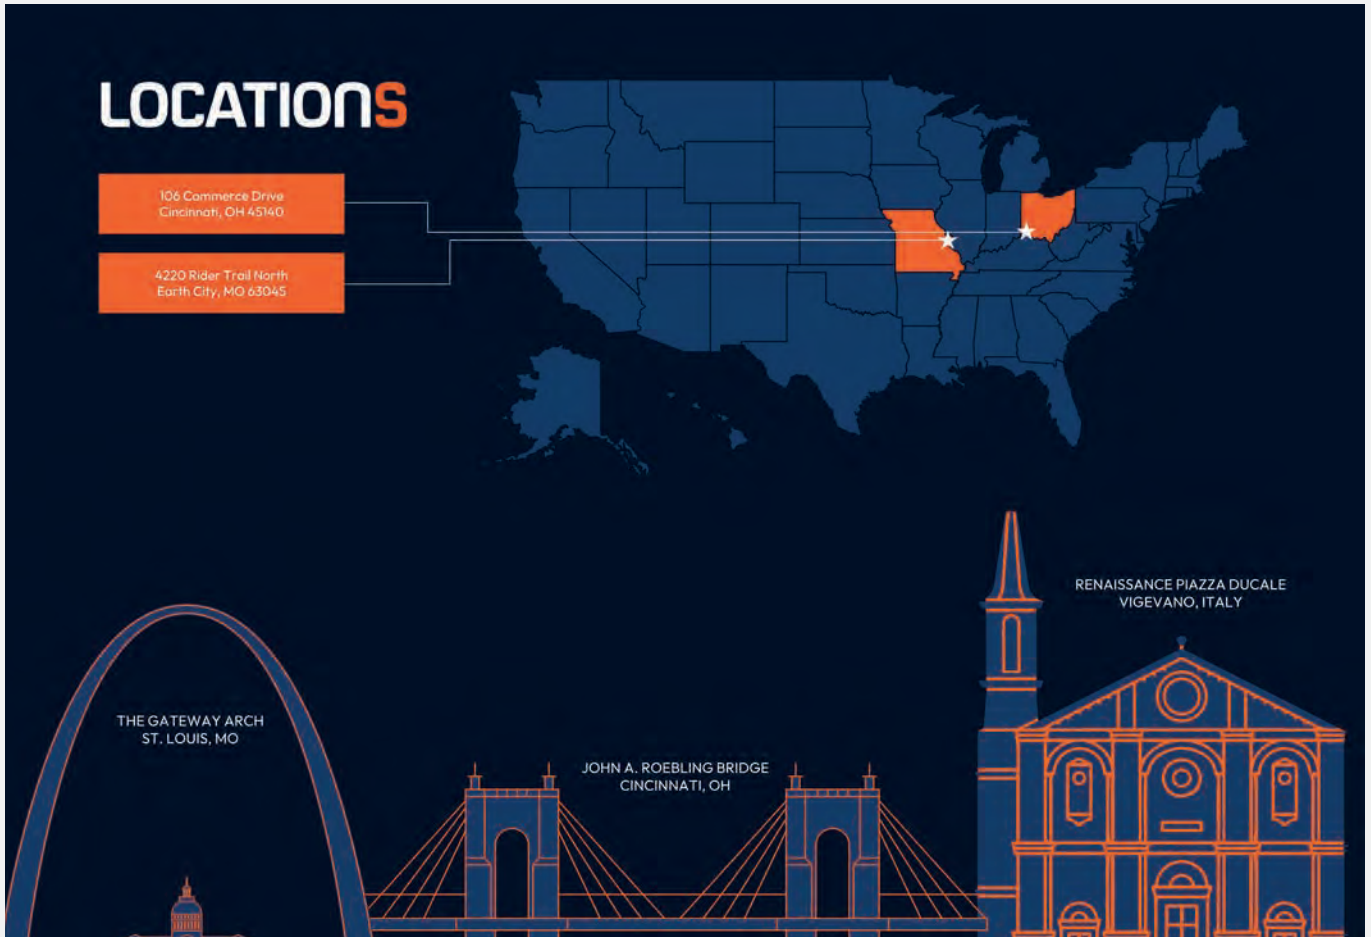

### **SHOWROOM & PERSONALIZED DEMO SESSIONS**

We provide hands-on access to the latest cutting technology through our dedicated showroom environment. Designed as a dynamic, evolving space, our showroom allows customers to experience equipment in action.

We offer personalized demo sessions tailored to your specific materials, applications, and production goals, giving you the opportunity to evaluate performance, explore software capabilities, and make informed decisions with confidence.

## MANUFACTURERS SUPPLIES COMPANY

---

*Integrated Innovation.  
Global Strength.*

At MSC, we partner with the Atom Group to bring customers advanced cutting and automation solutions backed by decades of engineering expertise.

The Atom Group unites the specialized capabilities of several established Italian mechanical engineering brands, transforming that collective knowledge into innovative technologies built to compete on a global scale.

Driven by a focus on integration, innovation, and a strong international presence, Atom delivers a comprehensive portfolio of machinery, software, and automation systems designed to improve efficiency, streamline production, and support long-term sustainability.
